

Titixa Kamani

Growth Designer | UX UI Designer | Design Engineer

titixakamani21@gmail.com | +49 15560353600 | linkedin.com/in/titixa-kamani | titixakamani.com | Krefeld, Germany

Proactive Designer with 4 years of tech experience and 2+ years of design practice, specialising in UI design and UX research, with additional expertise as a QA Engineer and front-end developer. Completing an MSc in Usability Engineering in Germany, focused on the full UX design cycle. Designs and ships digital products end to end. Uses AI tools selectively on a daily basis to accelerate craft.

PROFESSIONAL EXPERIENCE

UX Engineer (Work Student) — Fressnapf Holding SE

Aug 2024 – Present | Krefeld, Germany

Europe's largest pet care retailer, 2,700+ stores across 15 countries.

- Architected and shipped the Order Automation Tool solo — research, Figma prototyping, React and Python-Flask development, through to production.
- Translated Figma prototypes into accessible front-end components, cutting development rework by **30%**.
- Refactored PetBot (AI testing tool) front end, enabling **300+** automated test scenarios and improving QA usability.
- Led stakeholder sessions producing roadmaps and UI concepts, achieving **100%** alignment between business goals and delivery.
- Used Claude for design research and direction. Used Claude Code to implement and iterate on frontend components.

Freelance Designer & Developer — Personal Client Projects

2023 – Present

Independent projects across multiple industries.

- Designed and shipped complete websites end to end: research, UX, development, and launch.
- Delivered Framer builds and Figma prototypes. Used Relume.io for sitemaps, Midjourney for ideation, Cursor and Claude Code for development.

Quality Assurance Engineer — Crest Data Systems

May 2022 – Feb 2024 | Ahmedabad, India

IT services firm in Data Analytics, Cybersecurity, and DevOps.

- Built automated testing framework using Selenium, accelerating release velocity by **25%**.
- Validated Google Chronicle and Jira integrations, ensuring **98%** adherence to enterprise security and functional requirements.
- Drove Agile Sprint rituals and maintained technical documentation in Confluence.

Quality Assurance Engineer Intern — Crest Data Systems

Jan 2022 – May 2022 | Ahmedabad, India

- Managed defect lifecycles in Jira, reducing developer turnaround through precise bug reporting.
- Performed backend validation using Postman and MongoDB, ensuring data integrity across platforms.

EDUCATION

MSc in Usability Engineering — Hochschule Rhein-Waal

Apr 2024 – Aug 2026 | Kamp-Lintfort, Germany

BTech in Computer Engineering — Marwadi University

Jan 2018 – Apr 2022 | Rajkot, India

SKILLS & TOOLS

Design: Figma, Framer, Adobe Creative Cloud, Miro, UI Design, UX Research, Usability Testing, Wireframing, User Flows, Design Systems, Responsive Design, CRO, A/B Testing, Growth Design

Analytics & Workflow: GA4, Microsoft Clarity, Monday.com, Jira, Confluence, Agile/Scrum, Stakeholder Management

Development: React, HTML5, CSS3, JavaScript, Python, Flask, Selenium, Postman, MongoDB, Git

AI Tools: Claude, Cursor, Relume.io, Midjourney — used selectively. Design direction always human-led.
